Name: Patrick SMITH

This is the title of my study

Abstract

2/3 lines of abstract

Problem

Explain which problem you're addressing. It should be framed as a problem (typically something desirable we want, or something undesirable we don't want, or something we don't understand, or something surprising).

Method

What you did

Results

What you got

Discussion

Comparison with expectations, limits, perspectives.

Bibliography

All useful references with links.
